## Multifunctional USB Rechargeable Chopper

B-709

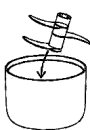

**1** YEAR  
WARRANTY  
ON MOTOR

## Product Features

1. This product features in unique appearance, all body waterproof and wireless portable design.
2. With the double electronic induction safety switch, users can control the grinding degree of food at will by pressing the switch.
3. With the food grade processing bowl and Stainless Steel blades, the product is easy to clean and can be sterilized at high temperature, which is healthy and clean.
4. Detachable parts can be washed by water directly.

## Instructions

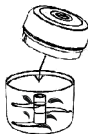

1. For the first use, please fully charge the main unit. After the main unit is fully charged, the blue indicator light is always being on. Then clean the main unit, blades and processing bowl.
2. After the food is put into the processing bowl install the main unit along the two slots of the jar. When the main unit is installed, the blue indicator light flashes 5 Times. Then press the switch to process the food. Do not overload the jar, otherwise the blades may not rotate when it is started.
3. Chopper will auto stop after 30 seconds. If the food is not so delicate you expected, continue to press the switch for processing. After finishing, remove the processing bowl attached from the main unit and pour out the food in the jar. Next, rinse it with water.

Place the blades

Fill the blender jar with ingredients

Install the main unit

Press Start

## Cleaning

1. Please clean the main unit, blades and processing bowl immediately after using the product.
2. The product can be cleaned directly with water or wiped with a soft wet cloth.
3. For more effective cleaning, you can apply a proper amount of detergent and clean it with a cleaning pad in warm water.
4. The blades are very sharp. Do not touch the blades with your fingers to avoid personal injury. Clean the blades with very clean water so that you can see the blades when cleaning.
5. Never use abrasive cleaning agents or aggressive liquids to clean the product.
6. Never sterilize any part of the product at high temperature.
7. Please dry or air dry all parts of the product after cleaning, and then reassemble and store the product.
8. If the product is not used for a long time, please charge the product within three months.
